Tomorrow's Solutions Today

Bulk up Your Bottom Line with AHW!

Maintaining your equipment just got easier. AHW now offers Bulk Oil service to its customers. Purchasing premium Plus-50 II or Hy-Gard oil in bulk will conveniently keep your equipment moving in top order.

AHW's stackable totes make storing bulk oil easy and convenient. Choose from 70 or 120 gallon sizes. Each tote comes equipped with brass valves, poly valves or select a pump and hose kit to complete the system. For accurate measurements when servicing equipment, pumps and meter guns provide precise factory recommended amounts.

Totes are mobile too, when you add steel casters for moving it around in your shop. (requires a pump set up, single tote only)

Benefits of bulk oil:

Saves money – See immediate savings when you begin the AHW Bulk Oil Program

Convenience – Delivered direct to your farm or work site

Easier Maintenance – Using a tank is much easier than dealing with drums making maintaining equipment much simpler

Controlled Inventory – Tanks are easy to meter and monitor allowing for complete control of your bulk stock

Less Waste – Fewer containers make bulk oil environmentally friendly

Safer – Bulk oil is also easier on your back not having to lift and maneuver heavy drums

To keep your fleet of implement vehicles running in top shape, talk with your nearest AHW representative today to see how they can help you save money with BULK OIL.

Bulk oil from AHW, just another way we help our customers succeed in the field.
